To Clerk

Thanks for the quick reply.

I don't think Menna will be able to help you on this as we only put the requests/queries in after she left - to the September, October, November, January, February and March meetings. A number of these were on lists handed to the Chairman at the CC meetings but I never found out who on the committee had been actuated to progress on matters as there were no minutes published at the time. We did also make available Hall Management Committee meeting Minutes where the queries were first raised.

The last printed list (March 14th 2020, an update plus summary of the previous queries) I handed to you at your home sometime around March 16th when you became CC Clerk - it included several items such as Hall related street lighting, RHI grant, path markings, toilet funding, grant requests, etc. plus you may remember I added a handwritten note asking for urgent CC comments and decisions on closing the Hall and public toilets due to Covid19. If you cannot find it or any of those from the Chairman then let me know and I will search out the original computer files.

Hope this helps

best wishes

mike

Chair, Aberffraw Village Hall Management Committee
